

CALL TO PROHIBIT HIGH-CAPACITY MAGAZINES AND RESTRICT ARMED INTIMIDATION THROUGH OPEN CARRY

Dear Washington State Legislators,

This past year illustrated that even during a pandemic Washington state is not immune to the horrors of gun violence. Communities across Washington saw a record number of shootings in 2020. The COVID-19 crisis exacerbated the risk of every type of gun violence, leading to an increase in domestic violence, homicides, mass shootings, community-based gun violence, and armed intimidation this past year. **Now more than ever, we must protect and build on the progress we have already made in ensuring gun responsibility and start taking bold steps towards police accountability.**

It is imperative that during this Legislative Session our elected representatives take action to reject armed intimidation and advance **SB 5038**, **HB 1283**, and **SB 5078**. Just a few weeks ago, we saw the dangerous reality of open carry at political rallies where those who wish to engage in public intimidation are able to do so with indemnity. **SB 5038**, prohibiting the open carry of certain weapons at public demonstrations and the state capitol, will greatly limit the risk of political violence throughout our state. In addition, **HB 1283** will make it easier to prosecute those who use their firearms with the intent to intimidate. Large capacity magazines make these, and all, shootings much more fatal. The greatest predictor of a state's mass shooting rate is whether or not it restricts access to high-capacity magazines. **SB 5078** will reduce lives lost to gun violence and limit the scope of mass shootings by restricting access to large capacity magazines. Lastly, the issues of gun violence and police violence cannot be separated. We cannot end the gun violence epidemic without addressing police violence. There are several important police accountability bills in front of legislators that would ensure that our communities are safe from gun violence in all its forms.

We ask that Washington State Legislators pass these bills to ensure that our communities can be further protected from the atrocities of gun violence. In light of the hardships of COVID-19 pandemic, high-profile incidents of police violence, and spiking political violence, action on gun violence prevention has never been more urgent. Our elected officials must continue to fight for commonsense gun violence prevention and police accountability policies until all communities are safe.

Sincerely,
